## **2.1 – CONFERENCES by TISHK INTERNATIONAL UNIVERSITY**

**On-line Conference between  
Ishik University, Erbil / Iraq  
and**

**Kazan Federal University, Kazan / Russian Federation  
November 22, 2018**

Education Faculty students were certified by Russian Federation – Kazan Federal University for participating in the Third International Scientific and Practical online conference organized by Kazan Federal University (KFU). This is the 2<sup>nd</sup> time Ishik University and our students take part in this online scientific event. The title of the conference was **“The dialogue of the West and East: Topical Issues of Contemporary Education and Pedagogics”**, which was held on November 22, 2018. Nearly, seventy students and staff members of Education Faculty of Ishik University enthusiastically attended the conference. The participants of the Conference were from different nationalities and cultures. Five undergraduate and three graduate students of the Education Faculty of Ishik University participated in the conference.

The aim of the conference was to bridge the gap between East and West as the title suggests. The issues about Education and Pedagogy nowadays were the main topics which were presented and discussed in the conference.

After warm greetings to each other, representatives from two different parts of the world (Republic of Tatarstan/Russia and Kurdistan Region/Iraq) current undergraduate and graduate students of both universities presented their valuable and concise presentations one after another.

At the end of the conference, International Certificates of Participation were granted to our students and they were given a chance to publish their thesis and reports in the collection of articles of the traditional summer scientific and practical conference “Foreign Languages in the Modern World” (ПИИЦ) which is also annually held by KFU.

## ICABEP 2019

### 2<sup>nd</sup> International Conference on Accounting, Business, Economics and Politics

On April 10<sup>th</sup> and 11<sup>th</sup>, 2019, the Faculty of Administrative Sciences and Economics (FASE) of Tishk International University (TIU), and their partners from the University of Szczecin of Poland held the second annual International Conference on Accounting, Business, Economics and Politics (ICABEP 2019). The conference was attended by a large number of local and international researchers and academics.

Overall, the Scientific Committee of the Conference received close to 90 abstracts, which are published in the Abstracts Book. Each full paper submission was then sent to a blind review, resulting in a collection of 52 fully published papers were published in Conference Proceedings Books.

On its first day, the opening ceremony took place in the Saad Abdullah Palace, Erbil, and it was attended by a number of dignitaries, including diplomats, ministerial representatives, the presidency of the TIU and representatives from the University of Szczecin. Consular Generals and representatives of Poland, India, Japan, South Korea, Palestine, and Sri Lanka were present at the opening ceremony of the conference.

In term of the presentations of the accepted papers, for the rest of the conference, presentations were made in 4 parallel sessions, providing an excellent opportunity for the researchers to engage in constructive discussions and the sharing of their researches.

The organizing committees of the conference are proud to report that a large proportion of the submissions were made by scholars outside of the country, thus, making the conference truly international. In addition to this, researchers from various cities and institutions in Kurdistan and Iraq were also present.

The Faculty of Administrative Sciences and Economics of TIU intends to turn ICABEP into an annual event in which each year researchers around the world gather here in the city of Erbil to present and discuss the latest developments in the relevant research areas.

## SCIENTIFIC EVENTS

## **4. SCIENTIFIC EVENTS**

**4.1 - National Innovations Competition in Engineering (NICE 2019)**

**4.2 - Spring Festival – Scientific Activity by Medical Analysis**

#### 4.1 - National Innovations Competition in Engineering (NICE 2019)

Link: <https://www.ishik.edu.iq/nice2019/>

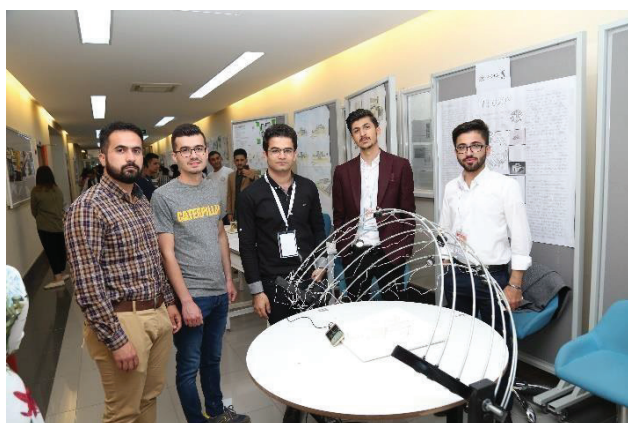

Tishk International University held **5<sup>th</sup> National Innovations Competition in Engineering (NICE 2019)** on May 05, 2019, under the theme of “Targeting Smart Sustainable Innovations”. **Dr. Idris Hadi Salih**, *Head of Board of Trustees and President of Tishk International University*, Deans, and Heads of Departments of the universities that participated honored the Hosts with their presence.

NICE (National Innovations Competition in Engineering) is a groundbreaking Engineering competition open to higher education students in Kurdistan Region. Project competition was held in seven different categories: Computer Science and Engineering, Civil Engineering, Surveying and Geomatics, Interior Design Engineering, Architecture Engineering, Petroleum and Mining Engineering, and Mechatronic Engineering.

The competition aims to explore the ability of the students and provide a platform for the students to present their projects to the markets and exchange ideas on the developments in the field of engineering.

More than 140 projects were presented by 400 students. More than 70 precious jury members evaluated these projects and selected the winners. The organization provided students with a chance to establish communication with each other to discuss their current work as well as to be encouraged in future projects. The competition was held among thirteen different institutes and universities of Kurdistan and Iraq.

## 4.2 - Spring Festival – Scientific Activity by Medical Analysis

Link: <https://www.ishik.edu.iq/4th-international-festival-of-language-culture-and-science/>

On Wednesday, April 24, 2019, the 4<sup>th</sup> International Festival of Language, Culture and Science was held at the campus of Tishk International University with the participant of general consulates, parliament members, parents, students, staff and guests.

The festival started at 10:00 AM with the national anthem, then **Dr. Idris Hadi Salih**, *Head of Board of Trustees*, **made outstanding speech**. He mentioned the importance of such social and cultural activities as TIU has always been worked on coexistence and gathered different culture and language, as well as this festival, is a clear example of that. Afterwards, **Mr. M.P. Raj**, Consul (Consular and Labor) from **Indian** consulate gave an **excellent speech** and appreciated TIU for organizing such a great event.

Medical Analysis Department, including 1st Year students and staff, has actively contributed to the Festival, in which the scientific bench was quite popular and attracted too many participants. A number of medical tests and measurements were carried out by our students, such as Blood Sugar test, Blood Grouping test, Blood Pressure measurements and cheek cells observation under the microscope.

JOURNALS

## **5. TISHK INTERNATIONAL UUNIVERSITY JOURNALS**

**5.1 – European Journal of General Dentistry**

**5.2 – International Journal of Social Sciences and Educational Developments**

**5.3 – Eurasian Journal of Science and Engineering**

## 5.1 - EUROPEAN JOURNAL OF GENERAL DENTISTRY

European Journal of General Dentistry is a peer-reviewed online journal with 3 issues print on demand compilation of issues published.

EJGD is indexed by:

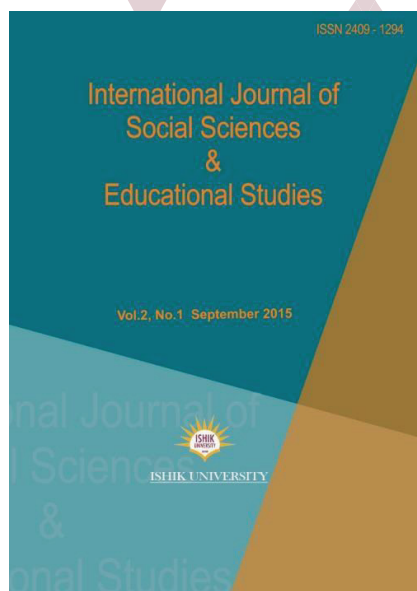

Google Scholar, OpenJGate, EBSCO Publishing's, Electronic Databases, Hinari, CNKI (China National Knowledge Infrastructure), Exlibris – Primo Central, Infotrieve, Journal Guide, National Science Library, ProQuest, TdNet, Index Copernicus, SCOPUS

The topics are:

The management of dental disease  
Periodontology  
Endodontology  
Operative Dentistry  
Prosthodontics  
Dental biomaterials Science  
Epidemiology  
Oral Health

## 5.2 - INTERNATIONAL JOURNAL OF SOCIAL SCIENCES & EDUCATIONAL DEVELOPMENT

International Journal of Social Sciences & Educational Studies is an open access international double-blind peer-reviewed refereed journal that publishes original researches regarding different fields of Education. The Journal is published quarterly (September, December, March, June) in both print and online versions. The online version is free to access and download. The journal publishes original research papers, case reports, and review articles.

IJSSES is indexed by:

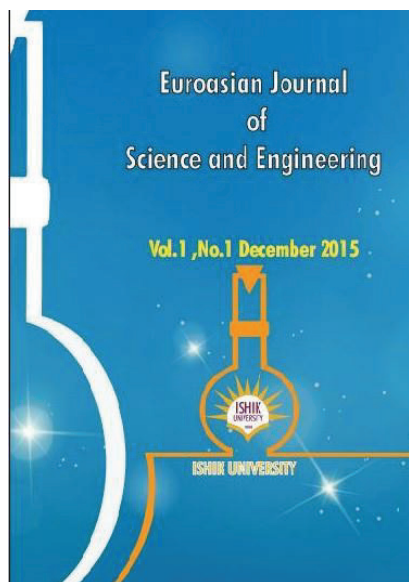

Index Copernicus, DOAJ, Jifactor, Citefactor, Google Scholar, Crossref, Road (Directory of Open Access Scholarly Resources), ResearchBib, DRJI (Directory of Research Journals Indexing), Worldcat, Open Science Directory, J-Gate, Ulrich's, SIS (Scientific Indexing Services), Sherpa/RoMEO, WangFang Data, MIAR.

The topics are:

Child Development  
Curriculum Development  
Reading Comprehension  
Philosophies of Education  
Educational Approaches

**Abstract:**

Medicinal plants have been identified and used traditionally throughout the world from beginning of the human civilization. Diabetes mellitus is a chronic metabolic disease that has a significant impact on the health, quality of life, and life expectancy of patients, as well as on the healthcare system. It is associated with several other metabolic abnormalities such as obesity, hypertension, and dyslipidaemia, which contributes to the very high rate of cardiovascular morbidity and mortality. There is an explosive increase in the number of people diagnosed with diabetes world-wide. Systematic studies on the folklore medicinal plants that combat diabetes mellitus are scanty.

The present study designed to isolate flavonoid rich fractions from leaves of *Olea europaea* and *Azadirachta indica* and standardize by HPLC method using specific flavonoid markers with respective plants and evaluate these flavonoid fractions for the effective antihyperglycemic activity by in-vitro carbohydrate metabolizing enzyme inhibition assays.

**Keywords:** *Olea europaea*, *Azadirachta indica*, hyperglycaemia, HPLC, Enzyme inhibition assays, Flavonoids.

## Project TWO

### Project title:

### **Phytochemical and Pharmacological studies of *Iris postii* and *Onobrychis Carduchorum Taumsent* Growing in Kurdistan Region-Iraq**

### **Abstract:**

A large number of plants have been used by local inhabitants all over the world as ethnobotanical healing; many of them have yielded important pharmaceutical lead compounds after modern scientific investigations. The Middle East Region is particularly rich in medicinal plants, and most of them have not been investigated yet for their metabolite contents.

The Kurdistan Region is a particularly little studied zone as concerns ethnobotanical and phytochemical investigations: the present project aims at filling this knowledge up. It is the first investigation of phytochemical and pharmacological studies of *Iris Postii* and *Onobrychis Carduchorum Taumsent*.

Both plants are widely used, by local people, for their Anti-inflammatory, Wound-Healing properties, and Anti-Tumer property.

The present research project deals with the collection, extraction, isolation and structure characterization of Bio-active compounds. The fractionation will follow a bio-active search, trying to isolate new active compounds. To this purpose, a net of research institutes will join the project: the University of Genoa (Italy) will make assays of cytotoxicity and wound-healing activity; an Italian Private Research Institute, specialized in discovering new lead compounds for pharmaceutical application, will make both *in-vitro* and *in-vivo* anti-inflammatory assays.

**Keywords:** *Onobrychis Carduchorum*, *Iris Postii*, anti-inflammation, anti-tumer, cytotoxic, extraction, medicinal plants.

### Abstract:

Even though water is a vital part of life, in developing countries, some communities are still mainly reliant on the usage of water from open sources such as rivers, streams and dams. Often times this water is not clean and safe for drinking as it is infected by bacteria. The World Health Organization (WHO) has stated that just about a million people die each year in developing countries, as a result of lack of clean drinking water. Numerous old-style purifiers such as chlorination, ozonation and UV radiation are effective at purifying bacteria unclean water to preferred levels. Nevertheless, some of these approaches are often time-consuming, expensive and yield damaging disinfection by products or even require that a subordinate treatment be used. For instance, chlorination is undoubtedly the simplest cleaning technique used. However, chlorine reacts with the organic compounds in water creating trihalomethanes which were found to be carcinogenic and mutagenic. Thus, there is a crucial need to come with alternative purifiers to offer safe and clean drinking water. To address this problem and according to the preliminary results our group have developed novel materials with cutting edge properties for water treatment. Green synthesis of metallic nanoparticles is considered as a simple alternative to complex physical and chemical methods due to their economic benefits and lack of negative effects, which needs a synthesis of metallic nanoparticles on a large scale without the need to use high pressure, power, temperature or hazardous chemicals. Therefore, through this project, we are going to fabricate an adsorbent and detector based green Nanocomposite for effectively assessment and removal of dyes and mercury as a carcinogenic and poisonous heavy metal within the waters of Kurdistan. We also believe that this project is multidisciplinary and we can jointly work with people from physics, chemistry, materials science and biology in order to make it globally acceptable.

**Keywords:** Water purification, Nanoparticles, Green synthesis nanoparticles, Nano composite.
